

NYLON HEAVY-DUTY SPLIT CONDUIT

Designed for demanding environments, our Nylon Heavy-Duty Split Conduit provides exceptional protection and flexibility for cable management in automotive, industrial, and electrical applications. Built from high-quality Nylon/PA6, this conduit offers outstanding durability while remaining easy to install.

- Material: Heavy-duty Nylon/PA6 for superior strength
- Temperature Range: -25°C to +120°C (Intermittent up to +180°C), ideal for high-heat applications
- Self-Extinguishing: Enhanced safety with flame-retardant properties
- High Flexibility: Easily adapts to complex routing and tight spaces
- Split Design: Provides continuous, secure cable protection

Supplied in 50m and 100m reels, this conduit is perfect for fleet operators, auto electricians, and industrial engineers looking for a reliable, long-lasting solution.

Conduit Diameter (Internal-External)	Length
6.8-10mm	50m,100m
10.1-12.7mm	50m,100m
12.9-15.6mm	50m,100m
16.8-21mm	50m,100m
