

TRANSIT CUSTOM BRAKE LIGHT CAMERA KIT (2017+)

SKU:D-KIT-0006

BRAKE LIGHT CAMERA

- Superior Clarity: 1080p AHD sensor delivers sharp HD video.
- Wide View: 170° angle reduces blind spots and aids parking.
- All-Weather Ready: IP69K waterproof & low-light (0.1 Lux) performance.
- Vehicle-Specific Fit: Perfect for Ford Transit Custom (Barn Doors, 2012+).
- Easy Setup: Includes 10M cable & RCA adapter (12V).
- Certified Quality: E-mark & CE approved.
- Flexible: Works with PAL & NTSC systems.

REAR VIEW MIRROR BONDER GLUE

- High-strength adhesive designed for reattaching rearview mirrors to windshields in automotive applications
- Fast-setting and durable bond that withstands vibrations, temperature changes, and daily driving conditions
- Easy to apply and long-lasting for reliable performance
- Ensures the mirror stays firmly in place for maximum safety and visibility

7" STALK AHD MIRROR MONITOR 2 CHANNEL

- Stalk mirror monitor that mounts to the windscreen for flexible viewing angles
- Variety of stalks available for customisation to fit different vehicle models
- Supports AHD inputs up to 1080p and D1 resolution for high-quality video output
- Compatible with both PAL and NTSC video formats
- Provides a clear and reliable display without obstructing the driver's view
- Easy installation with no need for additional mounting hardware

4 PIN AVIATION CABLE

- Male to Female 4-Pin aviation extension cable
- 10 Meters
- Twist locking for securing joins between cables
