- Low-Light Ready – 0.1 Lux (LED ON) for clear night visibility.
- OEM Fit (VW Crafter 2017+) – Factory-style integration.
- Optional Audio – Built-in mic for rear sound capture.
- Complete Kit – 10m extension cable, RCA adapter, 12V power.

REAR VIEW MIRROR BONDER GLUE

- High-strength adhesive designed for reattaching rearview mirrors to windshields in automotive applications
- Fast-setting and durable bond that withstands vibrations, temperature changes, and daily driving conditions
- Easy to apply and long-lasting for reliable performance
- Ensures the mirror stays firmly in place for maximum safety and visibility

7" STALK AHD MIRROR MONITOR 2 CHANNEL

- Stalk mirror monitor that mounts to the windscreen for flexible viewing angles
- Variety of stalks available for customisation to fit different vehicle models
- Supports AHD inputs up to 1080p and D1 resolution for high-quality video output
- Compatible with both PAL and NTSC video formats
- Provides a clear and reliable display without obstructing the driver's view
- Easy installation with no need for additional mounting hardware

4 PIN AVIATION CABLE

- Male to Female 4-Pin aviation extension cable
- 10 Meters
- Twist locking for securing joins between cables
